INTRODUCTION

On the 225 rolls of this microfilm publication are reproduced the compiled records that give the military service histories of units in volunteer Union organizations. The compiled records are card abstracts containing information relating to the stations, movements, or activities of each unit or a part of it, and frequently to its organization or composition, strength and losses, and disbandment. Sometimes the names of commanding officers, the dates the unit was called into service and mustered out, the terms of service, and similar information are included.

The compilation of records of service by military units of volunteer Union organizations was undertaken simultaneously with the compilation of the service records of volunteer Union soldiers. The work was begun in 1890 under the direction of Capt. Fred C. Ainsworth, head of the Record and Pension Division of the War Department. The abstracts were made from original muster rolls and returns in the custody of the War Department and from rolls borrowed from the Second Auditor of the Treasury. The abstracts made from the original records were verified by a separate operation of comparison, and great care was taken to ensure that the abstracts were accurate.

Most of the compiled records reproduced on this microcopy are arranged alphabetically by State or Territory. The remainder are for units that were not limited to any one State or Territory; among them are the U.S. Colored Troops, U.S. Volunteers, and U.S. Veteran Reserve Corps. The records are further arranged by organizational breakdown under each unit.

Most of the compiled records for each organizational unit are in jacket-envelopes bearing the title "Record of Events" and giving the name of the unit. Many of the cards contain abstracts of the record-of-events information as found in original muster rolls and returns. Also included are some cards showing the exact captions of the muster-in and muster-out rolls that were copied and the certifications by the mustering officers verifying the accuracy of the rolls. The jacket-envelopes for a few units contain no documents but do contain references to other units with which these units were merged. In some instances the references concern transfers of documents.

Preceding the jacket-envelopes for the organizational units there sometimes are envelopes containing general notation cards giving information relating to the units. Some of the notations are statements of determinations made by the War Department concerning the service of the units; others contain information that was found in original records other than muster rolls and returns.

There are some card abstracts made from returns that are not in jacket-envelopes. These abstracts were accumulated by the War Department to be interfiled with the regular abstracts but were not interfiled, for one reason or another. The usual reason was that the abstracts made from returns were compiled later than those from muster rolls and in some cases the War Department failed to complete the filing of them. The National Archives has collected all the unjacketed abstracts that could be found for each unit and has filed them immediately after the jacket-envelope containing related abstracts for the unit. A card labeled "Additional Card Abstracts of Records" has been placed at the beginning of each set of unjacketed abstracts to distinguish them from the ones that are in jacket-envelopes.

The National Archives also has compiled service records of the volunteer Union soldiers who served in the units whose service histories are reproduced in this microcopy. They consist of a jacket-envelope for each soldier, labeled with his name, his rank, and the unit in which he served and typically containing (1) card abstracts of entries relating to the soldier as found not only in original muster rolls and returns but in other original records such as hospital rolls, descriptive books, and lists of deserters; and (2) the originals of any papers relating solely to the particular soldier. In a few instances there are compiled service records for volunteer Union soldiers who served in units for which there are neither record-of-events nor general notation cards; consequently, there is no record of such units in this microcopy. These units generally served only for short periods (about 1 to 3 months) or failed to achieve a complete organization. There are card indexes that may be used to locate the compiled service record of a volunteer Union soldier. Most of the indexes and some of the compiled service records of volunteer Union soldiers have been microfilmed.

The compiled records showing the service histories of units in volunteer Union organizations reproduced in this microcopy, the compiled service records of volunteer Union soldiers, and the indexes to the latter are part of Record Group 94, Records of The Adjutant General's Office.

The Regiment was engaged in the Battle of the 6 & 7 Inst and suffered considerably in loss of men yet held its ground until forced by greatly superior to fall back which it did reluctantly.

On the morning of the 6th of April 1862 the enemy attacked our advance lines in overwhelming numbers and drove them back they being unable to cope with the force advancing upon them. The long roll was sounded throughout our camp and at 7 O'clock A.M. of 6 Inst the 31st (over

was ordered into line and immediately marched with the 3rd Brig 4th Div then under Genl Hurlbut to the left-centre of the advance of our lines. We then awaited the approach of the enemy who advanced upon us but who was warmly greeted with minnie balls as he came. We fought them desperately for some five hours Sunday morning after which we were forced to fall back. We were in the fight all of Sunday and Monday and did very good service. The Regiment fought most gallantly and sustained its hard won reputation.

We stayed at Calhoun till Feb. 9th when we were ordered to Ft. Henry where we arrived the evening of the eleventh on steamer. We were then ordered to Ft. Donelson where we arrived the

RECORD OF EVENTS.

The Co. has been with the Regt. constantly, since the battle of Nashville. On the march from Nashville to this place we encountered some very severe weather and at Elk River we were obliged to halt and await the building of a bridge - this occupied a delay of two days.

On the 3^d of Jan. 1865, we crossed the river and marched through Huntsville on the 5th and went into winter quarters about one mile east of the town. Since which time nothing of more importance than the usual routine of camp has occurred.

 nage, flying around their heads
 like hail, the loss of the Regt that
 day however was only one man killed.
 On the 24th the Regt relieved the 15 Ohio
 in the front line on Orchard Knob, and
 covered the same with strong skirmisher

 yards from the Knob. On the 25-

 the enemy into its entrenchments
 on the foot of the mountain ridge.
 In the afternoon about three o'clock a
 general advance having been ordered
 the Regt moved out again in the support
 of the 15 Ohio when the signal of ex-ec-
 ute was given. Having a plan about one mile of open ground
 where the enemy had a good range with
 their artillery stationed on the ridge the
 Regt pushed on in double quick time not
 stopping until they reached the ridge
 when they slowly but continually
 pushed forward and took possession of the
 ridge without being fired at, nor
 exposed to any danger. As they arrived on the
 crest of the ridge they immediately turned the
 captured pieces of artillery and forced
 the rebel cannoniers to fire into the retreat-
 ing and disorganized masses of the enemy.
 The officers of the 6 Ohio rode ahead of those of the
 82nd and 7th Cavalry on the rear of the other regts they
 were the first that reached the crest of the
 ridge. On the 25th the Regt left
 Chattanooga with the 4 Corps on foot march
